

To Whom It May Concern:

As part of the Webberville Neighborhood, I am writing to express my opposition to the proposed Lightfield subdivision development project, at 4902 Lott Ave. I join with many other concerned residents to oppose this development.

MX3 Homes, LLC has historically built homes that alter the neighborhood's property values and community character in a negative manner. In addition, my opposition is also based on these facts:

- Increased traffic congestion adding to an already dangerous situation. The streets in the area are very narrow and it would create a significant amount of traffic on the surrounding streets.
- The environmental impact on the impervious cover to the creek could create a problem for the homes downstream of the development.
- The lack of affordable housing would continue the displacement trend in the area.

Please help us grow our neighborhood for the betterment of our residents, and not for the profit of developers.
